Bachelor of Science in Interdisciplinary Studies

The Bachelor of Science in Interdisciplinary Studies offers a comprehensive curriculum that exposes students to multiple disciplines. This program offers a practical alternative for students seeking a bachelor's degree who find that traditional programs do not meet their needs. It allows them to design a personalized academic path that supports their growth and professional development by combining two or more disciplines into a coherent program.

Skills You Will Develop

- A broad academic foundation that opens doors to diverse career opportunities.
- Entrepreneurial skills by combining business administration courses with attractive business subjects.
- Advanced writing, reading, public speaking, and analytical thinking skills.
- Adaptability and multitasking skills to prepare for the challenges of the global economy.

Learning Objectives

Combine two disciplines into an integrated bachelor's program.

Apply research skills from multiple disciplines to integrate different perspectives.

Critically articulate fundamental theories and principles that form the pillars of each discipline.

Apply acquired knowledge and skills toward achieving specialized professional goals.
